

Diljeet (DJ) Singh

201-600-6652 | jeetds1994@gmail.com | [Github](#) | [Blog](#) |

Full stack web developer with experience in Ruby on Rails, React and JavaScript based programming. Experimenting with computers, basic programming and robotics as a teenager, I am passionate about making the world a better place through code. With a background in tech hardware and mentoring/teaching, I bring strong skills in client relations and problem-solving in dynamic fast-paced environments.

TECHNICAL PROJECTS

EverythingPremier - [Github](#) | [Demo](#)

Display the most relevant information about the Barclays Premier League.

- + Developed in React and Javascript, with a Rails backend.
- + Utilized multiple APIs to provide the most accurate data to the user.
- + Styled front-end with Semantic UI, custom CSS, and D3.

Photo Shuffler - [Github](#) | [Demo](#)

An 8-tile photo tile puzzle game

- + Exercised DOM manipulation using Javascript and Rails backend for database.
- + Integrated complex Algorithms such as A-Star and Greedy Best to generate hints.
- + Employed heuristic (Manhattan Distance) to support algorithms.

Jesktop - [Github](#) | [Demo](#)

A desktop version of the classic game of Jeopardy.

- + Built with Javascript, Ruby, React and Postgres.
- + Utilized tools like Bcrypt and JWT for security and user authentication.
- + Integrated APIs to feed database and provide secure user access.
- + Built strong application foundation to enable dynamic API.

TECHNICAL SKILLS

Ruby, Javascript, React, Rails, SQL, JQuery, Redux, HTML, CSS, Swift, D3
