CONSULTING

Slalom
Consultant

Dallas, TX
July 2017 – Present

- **Consumer Goods – Food & Beverage:**
 - Commercial Finance Analytics: Led Income Statement and Profit/Loss Statement platform re-structuring efforts, including pre-calculated field data analysis and comparison, and established end-user governance framework.
 - Joint Venture Reporting: Developed and implemented the reporting strategy to be leveraged by multiple corporate entities in an organic products joint venture effort.
- **Financial Services:**
 - Commercial Products Change Management: Sourced, interviewed, hired, and managed a team of 11 to supplement the Treasury Support Team, and led change management and customer engagement campaigns for key pre-merger activities, while tracking key metrics and establishing a regular cadence to brief executives.

Sendero
Analyst

Dallas, TX
October 2015 – July 2017

- **Electric Utility:**
 - Customer Information System Replacement Project: Reporting Workstream Lead – Responsible for strategy, plan, implementation, and adoption of new Customer/Market Operations analytics platform. Led multiple teams in system architecture, legacy data migration strategy, interface support, and report development execution.
 - Analytics Strategy Project: Served as the Project Manager for 2016 Data Management portfolio. Responsible for scoping project demand, financial forecasting, vendor and resource management, and project execution.
- **Internal:**
 - Analytics Discovery Project: Led Sendero's Analytics Practice use case development initiative, which included sourcing the business case, creating the methodology/strategy, and leveraging 'big data' tools to organize and quickly process vast troves of data to achieve business insights and measurable outcomes.

Sendero
Associate

Dallas, TX
February 2014 – October 2015

- **Oil & Gas Completion Services:**
 - Enterprise System Implementation Project: Managed a cross-functional testing team during an SAP software implementation. Created Standard Operating Procedures to formalize new business processes for 5 departments.
- **Internal:**
 - Analytics Methodology Project: Integral team member in developing an internal Analytics practice area including methodology development, vendor selection, and client product design.
