EXPERIENCE

TECKNOWLOGIX, Norton, MA

2015 – Present

Owner | Principal

- Improved reporting and data visualization for clients of Kynektiv (a medical decision simulation company) to streamline data from existing database structure to structured views using Amazon Web Services, Microsoft SQL Server, Python, and Sisense.
- Drove utilization of Wrike Project Management software to train senior-level employees to help create project plans and meet deadlines for deliverables.

BENTLEY UNIVERSITY, Waltham, MA

2013 – 2017

Director of Enrollment Systems (IT)

- Led implementation of Salesforce CRM, which consisted of replacing existing systems used to recruit and admit students to the university, integrating Salesforce with the existing ERP and data warehouse, and training all end-users on new software and its benefits.
- Defined specifications for newly created data lake to be used in rebuild of the data warehouse. Pivotal in providing insights that allowed for rebuild of the data warehouse to meet the new business need of the university without compromising previous reporting needs.
- Designed and implemented business continuity plan for division in the event of a major catastrophic event.
- Mentored Enrollment Systems team through training and support of professional growth and development.

185 RED (dba Fire Engine RED), Philadelphia, PA

2011 – 2013

Data Integration Manager

- Partnered with software developers to design data structure for company CRM and defined technical specifications for necessary workflows, triggers, and functions based on client demands.
- Created data structure to build a data store for existing Fire Engine RED tools, applications, events, and broadcast emails, used to create analytics and data visualizations for clients.

STONEHILL COLLEGE, North Easton, MA

2010 – 2011

Manager of Admissions and Enrollment Systems II

- Chief Architect on the Stonehill College web application for admissions with particular attention paid to usability, data capture, and data export.
- Served as administrator on data transfer software and wrote all code to import data into Stonehill College database for Enrollment Management Division.

WORCESTER POLYTECHNIC INSTITUTE, Worcester, MA

2008 – 2010

Information Analyst

- Chair of the Data Access Working Group, responsible for reviewing access to database tables and forms across the enterprise and determining when wholesale access versus fine-grained access was needed.
- Wrote data access policy and implemented it across the organization.
- Developed online system for adding, deleting, or changing access to data.
- Enhanced efficiency of the decentralized admissions process by developing online application review for all graduate programs.

Other Work Experience:WORCESTER POLYTECHNIC INSTITUTE, Worcester, MA
