EXPERIENCE

Marketing Director

2016-2018; *Bonas MacFarlane Middle East*; Dubai, UAE

Bonas MacFarlane is a full-service educational consultancy providing bespoke tuition and support, with offices in the UK, Kazakhstan, and Dubai.

- Promoted to Marketing Director because of my initiative to craft a comprehensive marketing review for the firm.
- Planned and hosted a series of educational events designed to drive client referrals, gaining new, long-term clients with a lower acquisition cost than previous marketing efforts.
- Helped implement and manage a restructuring of the firm's operations in order to increase efficiency, including sourcing and testing a custom-built CRM for the firm, reducing the budget for actuarial services and the workload of administrators, reducing the firm's expenses.

Educational Consultant

2015-2018; *Bonas MacFarlane Middle East*; Dubai, UAE

- Became the go-to consultant for working with high-profile clients and selected for a two-year placement with Dubai's ruling family.
- Liaised with parents, students, teachers, and school administrators, managing the expectations of all parties, who often had disparate interests.

Sales Development Intern

2015; *Stafford Long and Partners*; London, UK

Boutique marketing firm servicing clients such as Barclays, the Royal Household, and L'Oréal.

- Initiated conversations with brand managers and HR representatives to build long-term relationships. Successfully established relationships with firms such as Arcadia Group, McDonalds and Samsung which led to pitch meetings by the creative team.
- Due to my keen attention to detail, I was approached by a senior partner to review internal on-boarding documents for Barclays and conduct instructional walk-throughs of their website with the HR department, helping to reduce the workload of an important client during their busiest period.

Duty Manager

2011-2013; *The Company Burger*; New Orleans, LA

Small chain recognized by national food publications for their quality food and outstanding service.

- Due to leadership abilities and aptitude for teamwork, I was promoted from a server to Duty Manager, where I was responsible for setting the schedules of wait staff, managing customer feedback, and on-boarding new employees.
- Worked full-time while at university, maintaining a 3.5 GPA and gaining promotions at work.

Internship Coordinator and Office Manager

2010; *Alabama Gubernatorial Election*; Mobile, AL

Long-serving congressman running in the party's state primary election.

- Excelled in a fast-paced environment, which often required working late hours, with time-sensitive tasks.
 - A week into my internship, I was asked to enhance my role within the campaign, moving to a paid position managing the interns and volunteers as well as overseeing the day-to-day operations of the campaign office.
 - Developed processes for handling campaign data, including models which helped us identify the most efficient times to canvass in particular polling districts, increasing the number of interactions with voters.
-

ADDITIONAL SKILLS & INTERESTS

- Proficient in MS Office Suite, including Excel and Access
- I enjoy sailing, cooking, yoga, debating, and attending economics and finance lectures
