Career Experience

Pneumeric, Inc., Chief Financial & Investment Officer / Co-Founder

Rochester, MN (remote in Scottsdale, AZ)

July 2021 – Present

Responsible for all financial and investment functions for Mayo Clinic spin-off medical device company commercializing FDA-cleared visual pneumothorax decompression indicator.

- **Fundraising & Financing:** To fund design, engineering and regulatory costs for start-up company structured and managed Seed Round convertible note offering. **Result:** Raised \$2.3 million (46% over-subscribed) from accredited investors and angel funds helping to achieve FDA clearance with a superiority claim in only 18 months for new medical device.
- **Financial Infrastructure:** Ensured proper financial controls, integrated processing, and reporting infrastructure by implementing accounting and inventory systems (QuickBooks), sales tax engine (Avalara) and payroll processing (Heartland Payroll). **Result:** Achieved exception-only based financial processing, reporting and tax filing validated by 2 external annual audits.
- **Treasury Management:** Achieved higher returns on excess cash and managed exposure to banks by establishing single cash management account to allocated funds to multiple banks within FDIC insurance limits. **Result:** Generated average yield of 5.20% for 2023 using FDIC insured certificates of deposit and treasury bills.
- **Marketing / Data:** Increased effectiveness of target marketing campaign to EMS community by forming data acquisition and analysis team to develop comprehensive state level contact and analytics database. **Result:** Increased national awareness while increasing sales via distributors over 10% in Q4 2023. Commencing commercialization efforts for new data products and services to generate additional revenue and cover all development expenses.

BioSig Technologies, Inc., Senior Vice President – Corporate Development

Westport, CT

March 2020 – June 2021

Medical technology company focused on digital signal processing clarity in cardiac electrophysiology space.

- **Fundraising:** Lead fundraising campaign to commence Phase 2 clinical trials for COVID-therapeutic molecule. **Result:** Raised \$14 million to fund study design and regulatory work.
- **Liquidity Solution:** Resolved liquidity problems for company by researching and evaluating all alternatives. **Result:** Negotiated and closed on \$60 million At-the-Market facility with leading broker/dealer firm.

Fidelity Investments, Vice President – Capital Markets

Boston, MA

June 2006 – March 2020

Recruited to build product management group for newly created Prime Brokerage business unit. Transitioned to Securities Finance desk in 2014 develop Fully Paid Lending program in conjunction with Fidelity's retail brokerage services division. Represented Fidelity on various domestic and international industry groups. Sole representative for Capital Markets on Firm's Government & Public Policy Committee and advanced priorities directly with Federal and State level political leaders. Recognized as most "Outstanding Business Partner" in Capital Markets in 2012 for leadership in launching

- **Strategic Planning & Execution:** Directed strategic growth over 8-year period for Prime Services unit by developing Business Roadmap, creating business cases and securing funding for strategic projects. **Result:** Business unit grew from 10 FTE and ~\$10 million in revenue upon arrival to over 45 FTE and over \$300 million in revenue to become most profitable unit in Capital Markets.
- **Business Development:** Increased non-US revenues by securing over \$9 million in funding to open 20 markets for hedge fund clients active in international equity finance activity. **Result:** First year incremental revenues ~\$20 million.
- **New Product Development:** Partnered with Margin Operations and Market Risk Management to gain regulatory approval to offer risk-based portfolio margin lending product to hedge funds. **Result:** Year 1 incremental margin lending revenues attributed to portfolio margin were \$27.5 million from \$300,000 project spend.
- **New Product Development / FinTech:** Lead team in development of new financial analytics platform allowing hedge funds to compare cash and synthetic financing costs between their prime brokers. Platform algorithms issued patents. **Result:** Platform successfully launched, new business unit formed and first year incremental revenue of \$36 million achieved.
